

NGUYEN PHUONG NAM

0878141528 | nnam.hp2005@gmail.com | github.com/moimoi05 | Hanoi, Vietnam

EDUCATION

University of Engineering and Technology - Vietnam National University, Hanoi

Sep 2023 - Dec 2026

Major: Artificial Intelligence | GPA: 3.28 | IELTS: 6.0

Honors: Top 10% Finalist, Naver Hackathon; Consolation Prize, UET Makathon; Outstanding Student Certificate (2026).

Portfolio: nnam.id.vn

EXPERIENCE

Viettel High Tech

Dec 2025 - Jul 2026

AI Intern, UAV Perception and Navigation Department

- Developed computer vision for UAV target detection using thermal and infrared camera data.
- Integrated thermal imagery into simulated aerial environments and developed an X-Plane 11 camera simulation plug-in.

Central Military Hospital 108

Dec 2025 - Sep 2026

Junior Software Developer, Equipment Department

- Built an end-to-end medical supply management system in Golang for use across hospital departments.
- Designed the database, REST APIs and backend logic; added WebSocket live updates and a Gemini-powered RAG chatbot.
- Deployed and integrated the system in the hospital's internal web environment.

RTC Technology Vietnam

Machine Vision

- Supported image processing and deep learning for product defect inspection; QR, Data Matrix and barcode reading; and OCR.
- Supported vision-guided product positioning for robotic pick-and-place.
- Configured vision systems and selected cameras, lenses and lighting for each application.

AVITECH Research Group, VNU-UET

Present

Undergraduate Thesis Researcher - Alzheimer's Disease Prognosis

- Researching Alzheimer's prognosis with deep learning and longitudinal, multimodal data to model disease progression over time.

Research profile: avitechresearch.vn/nguyen-phuong-nam/

LEADERSHIP & ACTIVITIES

University of Engineering and Technology - VNU

Sep 2023 - Present

Project Team Leader

- Led academic teams across AI, machine learning, computer vision and software development; coordinated implementation, integration and delivery.

TECHNICAL SKILLS

Programming: Python, Golang

Machine & Deep Learning: PyTorch, scikit-learn, Hugging Face, CNN, RNN, LSTM, Transformer, BERT, GPT

Computer Vision: YOLOv8, FaceNet, MTCNN, InceptionResnetV1

Data & Scientific Computing: NumPy, Matplotlib, SQL, NoSQL

Tools: Docker, Colab, CI/CD
